Professional Summary

I'm a passionate and self-driven front-end developer who enjoys solving real-world problems through clean, user-centered web solutions. With a strong foundation in HTML, CSS, JavaScript, and growing experience in React.js, I've built multiple projects focused on converting visitors into customers. I'm committed to continuous learning, goal-setting, and using tech to impact lives positively.

Technical Skills

HTML, CSS, JavaScript, React.js (basic knowledge), Git & GitHub, Tailwind CSS, Bootstrap, Figma, Communication & Collaboration

Projects

- **Weatherly Website**

A weather app that fetches real-time weather based on user location. Allows users to search other cities and changes background color based on conditions.

Tech Used: HTML, CSS, JavaScript

Live: Available on portfolio

- **Pure Glow Skincare Website**

Brand website with multiple sections (Home, Products, etc.) allowing users to add items to a cart and proceed to checkout via WhatsApp.

Tech Used: HTML, CSS, JavaScript

Live: Available on portfolio

- **Study Mate (In Progress)**

Educational platform to help students study smarter using flashcards and random quiz questions.

Tech Used: React.js
Live: In development

Collaborative Experience

- MyCad SaaS Project (Ongoing)

Contributing to a school management SaaS platform aimed at simplifying registration, payments, and dashboard access. Working with a tech team on UI development and planning.
Role: Front-End Developer

Education

- Lagos State University of Science and Technology (LASUSTECH)
